Objective

Enthusiastic Computer Science Engineering graduate, eager to launch a career in software development. Skilled in front-end technologies and back-end frameworks, with a strong academic background. Seeking an opportunity to leverage my full-stack development skills and contribute to impactful projects within a collaborative and innovative tech environment.

Technical Skills

- **Languages:** Java, JavaScript, SQL, HTML5, CSS3
- **Backend Frameworks / Libraries:** J2SE, J2EE, Java 8/11, Spring Boot, Spring MVC, Servlets, Maven
- **Frontend Frameworks / Libraries:** React.js, Bootstrap, jQuery
- **Databases:** MySQL.
- **Developer Tools:** Git, Visual Studio, Eclipse IDE, Spring Initializer
- **Web/Operating System:** Windows
- **Technical Proficiencies:** Data Structure and Algorithms, Object-Oriented Programming, Database Management System
- **Soft Skills:** Leadership, Problem-Solving, Collaborative

Education

Bachelor of Engineering in Computer Science (B.E-CSE)

University College of engineering Nagercoil - 2021 – 2025

- Final CGPA: 7.62

HSC

DVD Higher Secondary School, Kottar Nagercoil - 2020 –2021

- Final Percentage: 89%

SSLC

Evans Matriculation Higher Secondary School, N.G.O. Colony, Nagercoil - 2018 –2019

- Final Percentage: 88.4%

Internship

Intern at Appin Technology, Coimbatore – Web development (May 2024)

- Developed a task management system (To-Do List) using HTML, CSS, and JavaScript.
- Focused on front-end design, user interface responsiveness, and interactive features.
- Gained experience in structuring and styling web applications for better usability and performance.

Intern at Scope India, Nagercoil – Java Full Stack development (Oct 2024 – Nov 2024)

- Worked on real-time Java projects, focusing on both frontend and backend development using Spring Boot.
- Learned database management by implementing queries and CRUD operations in MySQL.
- Gained experience in managing the full development lifecycle and building scalable, user-friendly applications independently.

Intern at Agile Tribers, Nagercoil – Front-end Development (Feb 2025 – May 2025)

- Developed the front-end of a guest accommodation and reservation system using React.js.
- Focused on designing user-friendly interfaces, handling user interactions and ensuring responsiveness across devices.
- Learned how to build real-world web applications and collaborate effectively during a live internship project.

Courses and Certifications

Java Full Stack Development Training (June 2024 – Nov 2024)

- Completed hands-on training in full-stack development, including front-end and back-end technologies and managing Databases.
- Gained experience in building and deploying web applications using Java, Spring Boot, SQL, and related technologies.
- **Certification on 'Java Full Stack Development ' by SCOPE INDIA, Nagercoil**

Projects

Scope India Website Development

- Developed a full-stack web application for Scope India, integrating user authentication, course enrollment, and a student dashboard.
- Implemented login functionality, user registration, password recovery, and profile management.
- Designed a responsive frontend and built a scalable backend with Spring Boot.

Guest Accommodation and Reservation System

- Developed a responsive React-based web application to manage guest accommodation, food and transport for a Silver Jubilee celebration and similar large-scale events.
- Designed and implemented interactive UI components, managed how users move between pages (routing) and optimized user experience across all devices.
- Collaborated with the team by leading the front-end development and supporting the project's successful deployment during the internship.

Task Management System (To-Do List)

- Developed a front-end web page using HTML, CSS, and JavaScript.
 - Designed an interactive and responsive UI for users to create, update, delete and manage tasks.
 - Implemented dynamic DOM manipulation to enhance user experience.
-
